Introduction

Grant Lewi (1902 - 1951) is a legendary figure among twentieth century astrologers. He was a writer and editor for the two largest astrological magazines of the time. His two books, *Heaven Knows What* and *Astrology for the Millions*, were the first astrological books to become best sellers and even today, over fifty years later, they remain among the best introductions to the subject of astrology.

The astrological interpretations found in *Heaven Knows What* and *Astrology for the Millions* were unique, fresh, and simple. Llewellyn George, the prominent astrologer of the time, remarked that Lewi's interpretations must be intuitive because they were unlike any that had been written before him. Today these interpretations remain energetic and forceful and, though some references are now dated, Lewi's text still provides some of the clearest insights found anywhere in the literature of astrology.

Lewi was determined to make astrology more accessible to the average person, but while popularizing the subject he never watered it down or reduced it to the level found in "sun sign" astrology. Writing before computers were available, he made his books function as the computer, providing the reader with tables to generate their own charts or horoscopes and then linking his interpretations to the information found there. Lewi would have made good use of the computer, so much in his books seem to anticipate them. In his writing he tried to emulate the interpretation process by using a computerless version of artificial intelligence: the meaning of a planet in a sign doesn't stand alone but is modified by the other aspects found in your chart. Many of his comments depend on a combination of factors and for this reason you will sometimes find that he has something different to say about an aspect in your chart than he does for the same aspect in your friend's chart.

This report calculates your chart for you and then collects all of Lewi's comments strictly according to the astrological factors found there. The text contained here is valid even for those who don't know their time of birth - Lewi focused on those factors that are in effect throughout the birthday. The only exception to this is the case of the Moon which can move between 12 and 14 degrees in a day, so if the positions were calculated for noon then the Moon could be as much as 6 or 7 degrees different and possibly even change signs. If you don't know your time and the texts that involve the Moon seem unlikely, you may wish to compare reports done for the beginning and the end of the day.

At all times, Lewi’s aim has been to show how astrology can be used as an aid in living a more satisfying and fulfilling life. Astrology offers indications and pointers - and sometimes insights - to situations that you find in life. It doesn’t tell you what to do about them, but if it offers you a better understanding of the situation, then you are in a better position to decide for yourself what to do. To quote Grant Lewi:

"It is not limitations that eats out the heart, but inaction, the knowledge of powers not used, the sense of having failed to develop to the utmost. The overcoming of fate is not the overcoming of
Heaven Knows What

limitations: that is impossible. It is the exercise of free will, the assertion of the full self, expanding to its utmost with the tools at hand, in the circumstances that are set. Astrology, through the interpretation of the horoscope, assists men to the achievement of their maximum by indicating to them the lines along which their will may be most progressively applied, the goals to be sought, and the individual means by which each one may arrive at the outermost boundaries of his world."

Horoscope of Birth

Your horoscope of birth is the blueprint of your personality and character as indicated by the position of the Sun, the Moon and the eight planets on the date of your birth. This section is devoted to each of these members of the solar system.

The planets are the antennae and arms of the horoscope, of which the body and soul are the Sun and Moon. No planet will ever cause you to act counter to the testimony of the Sun and Moon in their combined influence on you. Remember this when you proceed with the following readings. All planetary vibration must be considered in light of the basic solar-lunar readings, for these are your character, your basic nature, which the planets will help or hinder but cannot materially change.

According to the sign position of your Sun, one planet will be more important than the others and should probably be read first. Your Sun is in Taurus and your dominant planet is Venus. Not only the action of this ruling planet will be very important in your life, but also the attribute over which it rules. Thus Gemini, ruled by Mercury, lives a great deal in the senses; Libra, ruled by Venus, responds most readily to emotional stimuli; and so on. Study your ruler carefully.

Remember in all planetary readings that they work within the pattern of your solar-lunar nature; never against it. The synthesis of your horoscope from the following series of paragraphs to a working unit depends on your keeping this in mind, which will enable you to weld all the readings into a unified and significant whole.

Sun in Taurus and Moon in Cancer
(You belong to the positive or executive group.)

You have a highly sensitive nature, are easily hurt, and likely to become very resentful of real or imagined slights or offenses. You are an ardent lover and a permanent hater, though you can conceal your dislikes very well and have a sort of protective diplomacy about you that makes it difficult for others to know just where you stand or what you are thinking about, in either personal or business matters.

You are a dangerous enemy or opponent, changing your position and tactics to suit your purposes, and popping up on the flank without warning while your victim is busy protecting his vanguard. Your ambition is of a deep seated, personal nature, closely allied with your vanity. Your apparent self-assurance is only skin deep, and underneath you're jittery and nervous as a schoolgirl on her first date. But despite all this you are likely to arrive, by diplomacy and the judicious using
of influence, at some position of authority - though you are not a real executive, and there are flaws in your executive procedure. Your capacity for conciliating all parties makes you appear weak, even when you know your own mind and what you want. Learn to take a stand, even if you antagonize someone or some faction, for otherwise your success, though possibly great on the surface, will rest on shifting sands. You need security and, even if for your affaires du coeur (which you probably are), require the stabilizing influence of a home. Both male and female of this combination do best after marriage, even though they are frequently late in settling down.

You must develop determination rather than stubbornness; forthrightness rather than diplomacy. Excess diplomacy can amount to weakness, and agreeableness to unreliability; just as hedging on important issues can amount to having no convictions at all. Take a stand and be damned for it; a good knockdown and drag-out argument is what you need once in a while. Learn, when you know you're right, to give no quarter. You can so easily see the other fellow's viewpoint that it disrupts your own. Let the other fellow give ground once in a while, or eventually he'll push you to the wall - and that'll be that.

Your explosive love-nature needs the check rein.

Sun

The Sun indicates the appearance you will present before the world and the psychological bias which will dominate your actions. What you seem, and why, are told in the reading for your Sun. In many ways the Sun is the dominant force in your horoscope and in your life. Other influences, especially that of the Moon, may modify the Sun's influence, but nothing will cause you to depart very far from the basic solar pattern. For this reason a whole literature and a whole business have grown up around Sun-sign astrology; and many people exist who think there is nothing more to the horoscope than knowing what "sign you were born in" and what the Sun in that sign means. This is a mistake, as you will discover when you have read the influence of the other bodies. But throughout your reading, keep in mind always the basic influence of the Sun, and remember that all other influences must be interpreted in terms of it, especially in so far as other influences play a visible role in your life. You may think, dream, imagine, hope to be a thousand things, according to your Moon and your other planets, but the Sun is what you are, and to be your best self in terms of your Sun is to cause your energies to work along the path in which they will have maximum help from planetary vibrations.

Sun in Taurus

"I propose to fight it out on this line if it takes all Summer."

_Ulysses S. Grant, born in Taurus, April 27, 1822._

"In all movements, we bring to the front as the leading question in each case, the property question."

_The Communist Manifesto of Karl Marx,_

_born in Taurus, May 5, 1818._

"From each according to his abilities, to each according to his needs."

_Karl Marx._
The singleness of purpose of the Taurean, his loyalty, his stick-to-it-iveness, spring from one source: his need for security. Self-preservation, the first law animating all assure in some degree, is the hub of the Taurean wheel of life; and the Taurean curls and dies within himself when security - emotional or material - is denied him. Not likely to be grasping, sure to be the embodiment of the idealist form of love, Taurus may himself, or herself, be quite unaware of inner motives, for self-analysis rarely important to this sign. Instincts are powerful and generally right - always right in so far as they serve the perhaps unarticulated motives of the Taurean, who, while not selfish in the ordinary material sense, sees to it that nothing interferes with the gratifying of his instinctual urge, self-preservation and its more abstracted form, self-fulfillment. The Taurean will not interfere with you if you don't interfere with him in these essentials, but will fight like a bear at bay for his rights to these things. He is the easiest person to live with, if you are willing to live with him and not against him. Anyone who is going to get along with a Taurean must understand that to him or her cooperation doesn't mean doing things together; it means doing things peacefully, in a friendly manner, even if the things are done separately. This kind of cooperation annoys people who are less self-sufficient until they learn that the heart of the Taurean comes home to roost only if you don't try to coerce it, and will break itself against bars of any kind, even if the bars are put up by love itself. The Taurean is so sure of his need for security that he resents any implication that he needs watching or holding; his instinct is to hold himself to what he needs and wants - and he can't by any force in the world be held to anything else. On the other hand, once he has polarized his instinct on an essential, he will cling to it with hands, teeth and toenails, and no one can tell him that it is unworthy, or wrong, or useless, or low. Once it is his, in that it satisfies his deepest needs, it is his forever, whether it be home, a man, a woman, ambition, love, money or anything. When the Taurean has determined in his deep and sometimes dark subconscious that his emotional or material security lies there, he goes there and stays there forever.

Following are the aspects to your Sun. In a general way, the trines and sextiles to your Sun make ease, contentment, happiness, luck; while squares and oppositions give you energy, drive, success, ambition. Conjunctions bring both energy and luck, and are translatable in terms of whether the Sun receives squares or trines, along with the conjunction. Similarly, squares and trines to the Sun together bring success through work and perseverance, and luck develops in proportion to the work done and the effort extended.

**Sun Sextile Saturn**  
*Orb: 01°27'*

You are lucky, coming of good stock and being born into a favorable environment. Elders have done a good deal for you, and no matter how poor your parents may have been or how rich, they have seen to it that responsibility was removed from you as much as possible and that the hardships of life did not touch you. You have a good sound body and mind. You are serious without being dejected or depressed, and are capable of concentrated effort. Look out, there is a tendency to relaxation and absence of direction and purpose - luck helps you out, but you don't seize or create opportunities. The tendency of this aspect is to smugness and self-satisfaction, pride and relaxation of ambition and energies, so that, despite a sound mind in a sound body, you don't seem to get very far.
Sun Square Neptune Orb: 03°35'

This is a treacherous aspect, subtly weakening the will power and making you susceptible to influences that arise not always from worthy sources. You are a sensationalist and will go out of your way for the bizarre, the unusual, or the mysterious in experience. You have to look out for this tendency, which leads you to seek strange and unreliable associates. A certain nebulous and impractical idealism attaches to your emotional and thought processes. You are likely to think in beautiful and vague circles and to give yourself up to dreams and emotions of a hypnotic and dangerous quality. Reason should be your constant aim, and you should avoid thinking or acting along inspirational, intuitive, or sensational lines.

Moon

While the Sun's position by sign determines what motives and urges dominate your life as it meets the naked eye, the sign position of the Moon tells the desire of your heart which may or may not be expressed or realized in your life. When you "know what you mean but you can't say it," it is your Moon that knows it and your Sun that can't say it. "Thoughts that do often lie too deep for tears" are the thoughts of your Moon's nature. The wordless ecstasy, the mute sorrow, the secret dream, the esoteric picture of yourself that you can't get across to the world, or which the world doesn't comprehend or value - these are the products of the Moon in your horoscope. When you are misunderstood, it is your Moon nature, expressed imperfectly through the Sun sign, that you feel is betrayed. When you know what you ought to do, but can't find the right way to do it, it is your Moon that knows and your Sun that refuses to react in harmony. Also, when you "don't know why I said that," it was your Moon expressing despite your Sun (if you are innerly satisfied with the involuntary speech), or the Sun expressing against the will of the Moon (if you are displeased with what has slipped out). Things you know without thought - intuitions, hunches, instincts - are the products of the Moon. Modes of expression that you feel are truly your deepest self belong to the Moon: art, letters, creative work of any kind; sometimes love; sometimes business. Whatever you feel is most deeply yourself, whether or not you are able to do anything about it in the outer world, is the product of your Moon and of the sign your Moon occupies at birth.

Moon in Cancer

You take yourself very seriously, as a person to be reckoned with. You feel that you understand others and that you deserve to be understood yourself; yet you frequently feel misunderstood. Things are very clear to you; your intuitions are powerful, and whether right or wrong, they convince you utterly and are likely to control your actions. Sometimes your hunches are away off the track, especially if emotions are involved. You regard your inner nature as something precious, to be guarded from the "slings and arrows of outrageous fortune," and are all too likely to think the slings and arrows are aimed at you when no one else in the world is thinking about you. You exude a desire to be understood, to be loved - also, to understand, and to love, if you have objectified your approach, which you must do if you are to be happy or successful. Your tendency is to withdraw, to meditate, and meditation often turns to brooding, brooding to depression. Activate your sympathies by becoming interested in others. Deserve their understanding by acting so that they can understand with approval. Forget yourself, your emotions, your reactions; harness your instincts to other people's problems or to creative work in business, science or the arts. To use, to become, to prove,
to love must replace in your nature the deep tendency to be content with to have, to be, to know, to expect. No doors are closed to you when you have turned your understanding outward to the world - and no doors are open to you when you turn it exclusively inward. Know your self first, through pain and struggle if necessary, and once you know it, don't brood about it; get to know something else.

Following are the aspects to your Moon. Look to the trines and sextiles to give you charm and clear-thinking; and to the squares and oppositions to provide you with concentration and driving force.

**Moon Sextile Mercury**  
Orb: 01°47'

This is a good aspect for sound common sense, strengthening the sanity of the mind and giving you the power to absorb knowledge readily and quickly. You are inquisitive, eager, intelligent, an apt student, and a good conversationalist, witty and apt in expression, logical and reasonable. You have some adaptability for business, especially salesmanship. You can succeed in one of the "vocal" occupations, such as speaking or radio announcing. You have manual aptitude and can do things with your hands, although you'd rather use your mind. Through cleverness you can generally succeed in life without too much hard work for you're a good talker and can sell yourself as well as your product, which eases the road for you.

**Moon Trine Mars**  
Orb: 06°53'

You have a vigorous mind - sharp, quick, satiric - and a clipped manner of speech. You have an aggressive spirit which may or may not be manifest in your actions, but which causes your plans to soar and your ideas to expand. You have good control over your passions, which are strong; and use your anger to good purpose. You are a dangerous enemy because your fires are leashed and directed to go to the mark. In a man's horoscope this gives an aggressive wife, possibly a shrew, who none the less is good for him, stimulating him to action at the same time that she makes him mad.

**Moon Square Jupiter**  
Orb: 08°59'

You are optimistic with respect to financial matters. You have a feeling that the purse will always be full, and the extravagance resulting therefrom may become dangerous to your security. If other aspects show material success and well-being, you have a cavalier attitude toward expenses and love to spend. This is a Falstaffian position - there's a hankering for rich and fancy food, a tendency to eat too much of it, and an accompanying danger of fleshiness, diabetes, gout, blood disorders. This is one of the aspects of indulgence. You are sunny and open-hearted, tolerant of other people and of yourself as well; a kind of happy-go-lucky individual, taking people as you find them, and consequently popular. This expansiveness may be curbed somewhat, but you are genial at heart. You usually have some share of the world's goods, though this doesn't in itself make for security - money comes in and goes out without causing you much worry or trouble, but, it does not get saved very consistently. You are able to manage your finances more successfully.
Moon Trine Uranus     Orb: 09°28'

There are dash and vitality here, preceding from an alert, quick mind, eager for knowledge, absorptive, and magnetic. You are able to see all sides of any question, from the other fellow's viewpoint as well as from your own; this makes you tolerant and intelligent, a good listener, a fair opponent in a detached intellectual encounter. You are capable of a good deal of mental objectivity; large ideas appeal to you, and you can think abstractly. Artistic and intellectual matters interest you, as well as social and political ideas and theories; but on these matters there is so much tolerance that you have difficulty making a firm stand for your opinions, and unless some other aspect shows decisiveness, this may be a debating-society position, under which things are talked out and mulled over and few decisions arrived at. Learn to see all sides, and then choose one and stick to it, and remember that too much tolerance and understanding of the other fellow's opinions amounts to having none of your own. You have advanced ideas, in theory, and may talk like a radical straight from Moscow; but you are little likely to put these into practice in your own life. This is one of the positions of the Parlor Pink, who talks a good revolution but doesn't get around to doing very much about it.

Moon Opposite Pluto     Orb: 06°51'

The important lessons in your life will be learned through your relationships. Men, the mother-figure will shape your reactions to all women. Women, you base your conception of your own femininity and nurturing abilities on the feedback you received from your mother. You tend to hold on to the past and act on your early conditioning until you realize how your subconscious reactions and motivations hold you back. You may feel you need freedom, thus avoiding close emotional relationships, when what you really need is to take a direct and personal responsibility for the direction of your life and the satisfaction of your emotional needs. Compromise is one of the key lessons of your life.

Mercury

Mercury is the sense-impression antennae of your horoscope. His position by sign indicates your reactions to sights, sounds, odors, tastes and touch impressions, affording a key to the attitude you have toward the physical world around you. Mercury is the messenger through which your physical body and brain (the Sun) and your inner nature (the Moon) are kept in contact with the outer world, which will appear to you according to the index of Mercury's position by sign in the horoscope.

Mercury in Aries

Your reaction to sense impressions is keen and alert. You detect smells, sounds, sights and tastes acutely and are very much alive to what you do or don't like in the world of sense impressions. Your sense of touch is not as alert as the others, though you are capable of training this sense if one of the others is served by it. Thus you can develop the sensitive fingers of a musician (violinist or pianist), making your touch serve hearing; or the robust hands of a sculptor, to make touch serve sight. Your reaction to sense impressions is personal; you interpret what you sense in the light of your ego, and are a scientific observer only if your total ego development is
along these lines. Generally you will be impressed by, and remember, what serves your purposes, let the chips fall where they may. Sound is very important to you and you should strive to live only amid harmonious and agreeable sounds. Cultivate the habit of listening to music, for sound penetrates directly to your ego centers, and if it is harmonious, serves to harmonize your whole nature.

**Mercury Sextile Mars**  
Orb: 08°40'

You have a facile quick mind, capable of grasping scientific facts and interested in them. But there's a good deal of a tendency to wasting your mental energies through lack of purpose, direction, and concentrative faculties. If other things show concentration, then this adds to the facility; if not, you'll have to fight against a tendency to skim the surface. A temptation to live by your wits is always present. If you hold yourself to a purpose your road to success is eased by quickness, perception, and ready grasp of details.

**Mercury Square Saturn**  
Orb: 06°26'

You are liable to fits of depression, for your deep and subtle mind feels the woes of the world, and your own woes, very keenly. You are sensitive in a peculiarly brooding sort of way, not striking back when hurt, but nursing your grief and feeling sorry for yourself. You have a profound mind. Shallowness, stupidity, and deceit throw you off balance - though you yourself are capable of subtleties that others may think deceit. But knowing your purposes you can justify yourself with a sort of pragmatic philosophy - the ends justify the means. You are selfish, and capable of what is known in the divorce courts as "mental cruelty". You are a prober and a pryer and can get inside people even when they try to keep you out - this is a detective-like position. You are a subtle opponent in argument, having facts and figures at your command, and there's nothing flimsy about the logical structure you build. You thus make a good lawyer and a just, if stern, judge.

**Mercury Trine Pluto**  
Orb: 05°04'

You are fascinated by the enigmatic or bizarre, and your thinking is geared to gaining a deep understanding of the mysteries of life. Because of this, you are a natural researcher and student of the occult, the sciences, psychology and astrology. You aren't satisfied by the dogmas or theories that others are content with; your search is for a personal truth, a notion of your place in the cosmos. Although you are secretive by nature, there is nothing that gives you more pleasure than digging into other people's secrets. Your determination helps you to learn a subject in considerable depth or to get to the bottom of neighborhood gossip. You have to exert yourself to develop your mental resources, since you are apt to coast along, learning only what comes easiest. Concentration and discipline should be cultivated. Once they have been developed, you can use your powers of persuasion to lead others gently.

**Venus**

Venus is the emotional antenna of your horoscope. Through Venus, impressions come to you from the outer world because of which you feel and react emotionally. The position of Venus by sign at the time of your birth gives the key to your attitude toward these emotional experiences. As
Mercury is the messenger linking sense impressions (sight, smell, etc.) to the basic nature of your Sun and Moon, so Venus is the messenger linking emotional impressions.

Venus in Gemini

You are emotionally aware, very susceptible to emotional stimuli, sensitive in that you react to them swiftly. But in the other sense you are not sensitive or touchy. Your emotions color your life and your reactions in a very lively manner; they are like a constant sheet of clear warm water that bathes you always, without necessarily penetrating very far beneath the surface. The alertness with which you relate sense experience to your emotional nature, and the glibness with which you can tell how you feel about everything, can make you a clever writer or artist. To express your emotions is almost as important to you as to feel them. You may learn to understand a whole lot about love and the world of the senses in theory, because you cover so much of it so swiftly. You are a gay companion, sophisticated, knowing all the answers. You may go on to another love, another experience, but you will retain a comradely interest in everyone you have ever known. You don't usually quarrel with people. You ought to probe yourself to see if you are getting the most out of life, or if you are only skimming the surface. "The world is so full of a number of things" - what one thing is your heart set on?

Venus Square Mars Orb: 05°44'

This strengthens your emotions and passions and will bring you some turbulent experience through love and sex at some time during your life. It adds a note of inharmony and strangeness to the love-life, making you extremely self-willed and independent. You have a highly unconventional and stormy sex-life. You are temperamental, and if the intellectual qualities are not markedly strong, you may be led to serious involvements through the misdirection of the passional and sensational nature. If the mental qualities are strong, this increases romanticism and intrudes a sensual note into the nature. It also inclines to financial extravagance in the matters of pleasure, dress, personal and domestic finery. There is a good deal of spice to your personality. You are magnetic, love company and a good time, and there is very little prudery about you. You'll swap yarns with the best of 'em, and maybe not always Sunday-school stories either.

Venus Trine Jupiter Orb: 07°50'

You have a gentle nature, sensitive and anxious not to hurt people or to be hurt by them. There is danger of your being imposed on, either personally or financially, through your emotions and sympathies. You have a somewhat matter-of-fact attitude toward love and will no doubt make a "good" marriage; you wouldn't be likely to marry beneath your station. This is not an "all-for-love-and-the-world-well-lost" configuration, but one that achieves satisfaction in love without going far afield from the hereditary and socially set pattern. You love the nice things of life and one way or another will manage to have them around you. This aspect doesn't create much for good or evil in itself, but supports other tendencies. If there are not other aspects to Venus the indications here will be significant, but almost any other aspect will fundamentally absorb this one and submerge its influence.
Venus Sextile Saturn  Orb: 09°22'

This steadies the emotional nature and if there is no aspect between Venus and Mars, Venus and Neptune, Venus and Uranus, or Venus and the Sun, makes you cold, aloof, and rather self-sufficient. You have extraordinary business judgment and through conservative and sound tactics usually build yourself a fortune, if you don't have one left to you - for this is one of the positions of hereditary security and, with other indications, wealth. If Venus is not with Mars, Uranus, or Neptune, you are ultra-conventional. You are so self-controlled yourself that you don't understand why other people have to be otherwise. You are peace-loving and wish nothing better than to live in harmony with your fellow men, although you aren't especially tolerant of them. You haven't had the emotional variety to your life to make you understanding of human weakness. If Venus is with Mars, Neptune, or Uranus, this condition may be changed. There will be emotional variety, and this aspect will enable you to steady down your life and recuperate from the ups and downs. A philosophic calm will underlie your greatest turmoil and give you the foundation on which to rebuild either your emotional stability or your material fortunes. This is one of the best of the passive aids to good fortune, standing by to give you self-confidence and sound good sense.

Venus Square Uranus  Orb: 08°19'

This gives an emotional nature alternately repressed and explosive, apparently somewhat conventional and cold but actually very independent and erratic in the love-life. A highly nervous quality accompanies all of your emotional dealings. You are an idealist in the realms of love, full of theories about sex and human relations in general, which complicate relationships that to other people are much more simple. You think much on emotional matters and are capable of hasty and jumpy action with respect to them; the motivating force behind your impulses is rational rather than physical - you can be swept off your feet by an idea, an ideal, a theory, more quickly than by the physical beauty of an individual. This ideology of yours is likely to take quite unusual forms, and to lead to strange relationships among strange and out-of-the-way people, because of whom you gain the reputation for being an eccentric. The square aspect will bring an additional somberness and sobriety to your outlook on human relations and will cause you at some time some considerable disappointment through misplaced or frustrated affections. You tend strongly to the unconventional in love matters, making a fetish of independence in your love life. A certain austerity attaches to you, and you can be unyielding when it does not suit your purpose to yield, at which time your detachment and objectivity can amount to cruelty. But at other times look out for impulse and temperament, for this is an erratic and unreliable position and makes you liable to periodic destructive impulses.

Mars

Mars is the energy principle in the horoscope. His position by sign indicates the channels into which energy will naturally flow, and the uses to which energy will most easily be directed. It is the planet through which the activities of the Sun and the desires of the Moon express in action - through which your body and your mind react to the sense impressions of Mercury and the emotional impressions of Venus.
Mars in Pisces

Mars tends to disappear in Pisces, and your vitality is likely to be low and jumpy. You tire easily, and thus withdraw a good deal into yourself. Energy can waste itself in brooding, introspection, and fears, if you aren't constantly on guard against these. You should select for yourself activities that don't tax the physical body too much, and learn to follow the ebb and flow of your strength. You can in this way, by being on the qui vive for the tides of your life, go a long way, for when you are not working, you are storing up ideas and vitality in the conscious and subconscious that express later. But when you try to keep going all the time, you lose energy, magnetism and ideas. You shouldn't try for too much physical expression of love, for your energies don't work here any more constantly than in other physical matters. When you're tired, you aren't worth much and tend to think badly of yourself. Master yourself by allowing plenty of time for rest and by being willing to go at a slower pace. Your mind works best in repose and solitude, and you should learn to lapse into both of these gracefully, without allowing them to become brooding and depression of spirits.

Mars Conjunct Uranus Orb: 02°34'

You have a strong personality and are a little cold and impersonal. You are mental rather than emotional in your bias toward life; capable, and quick in your perceptions. You are best when working in impersonal matters for your emotions are inaccurate and unreliable and (as the palmists say) you should let the head rule the heart. This makes good leaders, teachers, and government officials. Personal considerations don't interfere with what you have to do. You can be hard and even cruel if it suits your purposes. While you can be kind in theory and to groups, you are capable of being unkind in personal dealings and of hurting those who love you. A sort of rigidity pervades your emotions, and you have difficulty in unbending. There is something a little forbidding about you. You have a periodically high temper.

Jupiter

Jupiter is the feeler you have out in the world for opportunity. Through it the chances of a lifetime are passed along for consideration according to the basic nature of Sun and Moon. Jupiter's sign position indicates the places in which you will look for opportunity, the uses to which you wish to put it, and the capacity you have to react to and profit by it. Jupiter is ordinarily, and erroneously, called the Planet of Luck. It is "luck" in so far as it is the index of opportunity; but your luck depends less on what comes to you (Jupiter) than on what you do with it (the total personality). Opportunity appeals to you along lines laid down by your Jupiter.

Jupiter in Libra

This is a curious position, capable of seeing opportunity almost everywhere. There is a certain perversity about it, because you seem willing to do anything except what your nature is best fitted for. The opportunity that will appeal most to you is very likely to be the last thing in the world you ought to do. You are all too likely to follow what someone else says you ought to do, or what chance throws in your way. You need to cultivate firmness of purpose, and to concentrate on one line in which you want to excel. Your need for appearing successful in the eyes of others, rather
than in your eyes, causes you to see too much with the eyes of others, so that you lack the drive of those who work outward from their wells of ego into the world. You are all too likely to try to fit your ego into the demands of other people, and thus to founder because your anchor is not within your own heart.

**Jupiter Trine Neptune**  
*Orb: 07°46'*

This adds to the spiritual insight, increasing any latent intuitive faculties and enabling you to give practical application to your hunches. Aids creative artists by adding charm and facility to their expression and by making it salable. Helps business men by enabling them to follow their hunches to good advantage. Aids all those who deal with people (professional men, politicians) by adding a peculiar magnetism to the personality and making them appear jovial, humanitarian, and charitable.

**Saturn**

Saturn indicates the direction that will be taken in life by the self-preservative principle which, in its highest manifestation, ceases to be purely defensive and becomes ambitious and aspirational. Your defense, or attack, against the world is shown by the sign position of Saturn in the horoscope of birth. With Saturn in the same sign as Moon, defense predominates, and there is danger of introversion. The further Saturn is from Sun, Moon and Ascendant, the better for objectivity and extroversion.

**Saturn in Cancer**

This is a powerful if complicated position and generally indicates a parent fixation. The need for self-justification is the deepest driving force of the life, welded into the psychological background by circumstances of the early environment, and causes you to take one of two directions. (1) You become an introvert: you despair of being able to justify yourself and withdraw into yourself defeated. This of course is a destructive development, and should be fought off in favor of: (2) You require the maximum of self-justification to overcome a deep sense of inferiority and go out to battle the world aggressively to compensate for your (real or imagined) shortcomings. Psychologically, this is a "little man" position: your opinion of yourself is low, and you make up for it by assuming it to be high and living up to the assumption. This leads to success through considerable tension and stress. Material matters are important to you; security is one of your requisites, and you may acquire, and lose, much property before you die. Acquisition may be closely linked to your need for self-justification and thus make you grasping. You may come from a poor family and feel the need for overcoming the initial handicap. Or the power urge may be related to possessions. Though a home is important to you, you are not a warm-natured person. You may delude yourself into thinking you need love and sympathy which you don't get, but close examination will prove that what you really want is respect - which you will get. You can utilize this position of Saturn as the hub of your life, and from it make the spokes extend far in almost any direction.
Uranus

Uranus in a general way relates to the neuro-mentality, creative originality or individuality, and his position by sign in the horoscope tells the direction along which you will seek to express your most characteristic self in creative and original effort. With Uranus in the same sign with Mars, Uranus indicates high speed activity, love of swift motion and perhaps of danger.

Uranus in Pisces

Your genius is for inner truth and self-sufficiency. Rugged individualism in the economic sense will not appeal to you, but in the security of a new social order you will achieve a new individualism, based on self-knowledge and self-respect. You will take for granted the new world in which your maturity will be spent, a world of greater social equality. And in this world you will not drop to the mediocre level that is prophesied by the reactionary prophets of doom: you will, on the contrary, develop a new genius: the genius of personal development for its own sake, quite apart from the necessity of earning a living. You will know yourself better than your fathers and mothers and your older brothers and sisters knew themselves: you will make demands on yourself and drive yourself to new heights of personal accomplishment. Your genius is for the adventure of self-discovery and self-development, and in this adventure you will range new fields of unprecedented profundity.

Neptune

Neptune relates to the deepest wells of the subconscious, inherited mentality and spirituality, indicating what you take deeply for granted in life.

Neptune in Aquarius

Neptune's entrance into Aquarius brings deep interest in humanitarian causes. There is a tendency to messianic feelings of social and economic reconstruction, perhaps an inclination toward dubious methods of accomplishing worthwhile goals (an "ends justify the means" attitude). There will be a challenge to understand your true friends apart from manipulative and deceptive acquaintances. Watch yourself that you choose your friends carefully and plan around what you know to be ethically compromising situations. Creative originality will experience a heyday during Neptune's transit of Aquarius. On the personal level, eccentricity will accompany a dynamic of breakthroughs. Your private life will take on new significance. Neptune in Aquarius asks that we confront dangers more directly. The question will be, Are we ready for the reality of a greater human fraternity? Vision will need the ballast of compassion. We will not be able to afford hating those with whom we disagree.

Neptune Sextile Pluto Orb: 06°25'

The ideas that were instilled in you by your parents, church and society will undergo changes throughout your life until your religious and philosophical views are distinctly your own. This type of creative adaptability makes you able to forgo selfish concerns and direct your efforts toward the betterment of all. Artistic and/or psychic talents are possible.
Pluto

Pluto relates to the ability to let go of things, to get rid of irrelevant prejudices and outdated habit patterns. It relates to subconscious feelings, inner urges and repressed emotions. A strong Pluto gives the ability to see the hidden side of life, and thus bestows power on the native - power which can be used for good or ill.

Pluto in Sagittarius

If we have found wisdom with Pluto in Scorpio, we will be able to use it with Pluto in Sagittarius. We will develop new laws, new ideals, and new philosophies. Look for a blending of nations. Revolutionary fervor continues to be great. Dogmas are ripe for challenge, and the world is ripe for synthesis. Pluto in Sagittarius represents the opportunity to effect permanent changes in the fabric of culture. Beware, however, of wanderlust and a mindset of dabbling. Also guard against the extremes of ego which all too easily accompany a revolutionary's attitude. Your base of wisdom, developed while Pluto was in Scorpio, will serve you well. The dark side of change is warring faction, the "angry young man" dynamic, dropping the philosopher's stone through the glass floors of perceived progress.
The current transits are calculated exactly for the date shown. Lewi wrote text only for the aspects that he considered to be the most significant and only those are shown in this report. The dates shown only represent the times when the aspect is exact; its influence is felt for weeks, months, and sometimes even years around this time. A planet will often make the same aspect several times in one year before it leaves that area of the zodiac and moves on. This is due to the planet appearing to go backward or retrograde for a period of time and crossing and recrossing the aspect point. When this happens the effect of the aspect can be spread out over a considerable time and in this report the aspect and text will be printed for each time it becomes exact, although this series of aspects represents only one pass through this phase of its cycle. Remember that each transiting aspect is part of its over-all cycle and indicates a change of direction as well as an event. The cycle for a planet is the time it takes that planet to travel the entire 360° of the zodiac, beginning at the point where the planet is found at birth (the conjunction point), moving to the 90° point which Lewi calls the "lower square", then moving to the opposition or 180° point. Then it begins to move back towards the starting point, at the 270° point, or 90° away from the starting point, the planet is at its "upper square", and then it returns to the conjunction point where a new cycle is begun. Lewi will occasionally refer to these points in his text by name. In general all transits, whether of a planet to its own place or of one planet to another, mark cycles of growth beginning at the conjunction point, growing through the first square, fully grown at the opposition point, beginning to recede at the second or upper square, and finally starting a new cycle as it reaches the conjunction point again.

How long any aspect will be in effect is determined by the speed of the planet making the aspect (the first planet, i.e. Mars in Mars Opposite Sun). One Mars cycle is about two or two and one-half years and so a Mars aspect will last about 20 to 30 days. Jupiter takes about 12 years for its cycle and so its aspects could last around 4 months, while Saturn with a 29 year cycle will last 9 months or even more if it turns retrograde. Uranus, Neptune, and Pluto are all long range aspects and usually represent a time of 2 or more years. While Saturn and the outer planets indicate long range influences in your life, Mars aspects will identify important months and Jupiter will identify important years. Not every occurrence of these will be of striking importance. But within a larger Saturn cycle or Uranus period of great importance, these briefer influences will be found to act as the second or minute hand of the clock of destiny, as Saturn, or Uranus, or both, act as the hour hand.

May 8, 2014 - Mars Conjunct Jupiter

Opportunities abound, and your energies are up to them. Optimism runs high, and you can be made to color, and perhaps prophesy, the life for a long time. Work is abundant and gratifying; you
are popular and lucky. Be careful not to waste opportunities through trying to do too much at once; don't spend too much money, either, but make a point of saving. This ought to be a period of good income, which tends to make you openhanded and generous, perhaps to a fault. Keep your eyes and ears open; some of the best forward pushes of your life will come in these periods when circumstances combine to give you the rewards of work done in the past and to open up new doors for the future.

**Jun 12, 2014 - Jupiter Conjunct Saturn**

This aspect brings a sobering influence which enables you to dig into your trenches of security and raise your standard of living according to the terms of your life and job as you find them. It will bring opportunity only if you are able to see it in routine channels. This is not a good time for change. Under normal conditions, this will pass more or less unnoticed, except that you slowly and unobtrusively accumulate power and authority in whatever work you are doing. Coming in a period of unemployment or depression, it breaks the deadlock, providing you an opportunity to make a new start which should not be rejected because it is slow or "beneath" you.

**Jul 24, 2014 - Mars Opposite Mercury**

Quick speech, thought and actions make strife and trouble. Be silent, cagey, noncommittal. The quick retort makes trouble. Wrong decisions often come in one of these periods, which recur about every six months and need careful watching. Sometimes the most casual remark results in a lasting grudge. Mountains (of trouble) grow out of molehills (of speech). It is best to be silent.

**Aug 31, 2014 - Mars Opposite Sun**

This transit is likely to mark periods of quarrels, strife, disagreements, difficulty in getting along with people. It is therefore a good time to lie low and be silent; to observe and do your duty without argument or fuss. Conserve strength: there is a tendency to go to extremes. Adventurousomeness and romance run riot and kick up a lot of trouble. New contacts are exciting but not necessarily of any permanent worth. If other transits indicate a generally good period, increased energy here can bring good results; under negative transits you should lie as low as possible and avoid getting into trouble. There may be accidents or illness.
Sep 16, 2014 - Mars Opposite Venus

Heightened emotions make romance, which is favored if you keep it within the bounds of reason and convention. Impulsive acts, with or without a future, are frequently found in these recurrent periods. Glamour surrounds your approach to life; you are susceptible to the opposite sex and they to you. This transit frequently indicates the time of marriage within the period of a longer transit that favors it. If the era of romance is past, this indicates an active and on the whole satisfactory social period; business progress; extravagance with money; a sudden urge to go places and do things - and perhaps a chafing at the marital bit which should not be taken too seriously. Energies work through emotions and passions, which in turn work overtime and should be gently disciplined though not entirely submerged. Often, for obvious reasons, this transit indicates the conception of children, especially if it occurs while Mars is conjunct your sun or conjunct your Mars.

Sep 25, 2014 - Mars Square Mars

This transit indicates a period of hard work and abundant energies, which causes no trouble unless major disruptive influences are in force. There is a slight tendency to talk too much, boast and be arrogant, but the swiftness of the pace generally carries you through without major trouble. Look ahead, work toward and plan for some major development to take place coincident with the conjunction of the transiting Mars with your birth Mars which will occur around Jan 22, 2015. Frequently this transit marks the busy start of something that matures at the next Mars conjunction to Mars and should be viewed with that in mind. Protect health and nerves from excess; be objective and detached; and let reason rule the emotions.

Sep 28, 2014 - Mars Square Uranus

This transit is not usually important except as a marker of temperament and minor strife. But at one of these periods some major break due to temperament - some sudden shift in the pace and direction of the life - is likely to occur. The individuality is suddenly awakened to broader horizons, greater worlds to conquer, and determined to shake off the shackles of restraint. In undisciplined persons this will mark periodic temperament, rages, rebellion and strife; also accidents and setbacks due to lack of nervous coordination. In normally disciplined individuals all but one or two of these periods should be comparatively inconspicuous. But the one or two may be memorable and probably nothing to be proud of.

Oct 7, 2014 - Saturn Opposite Sun

This position brings one of the most difficult periods of your life and also, if you will understand it, one of the most fruitful in personal development. It represents a period in which the world around you seems harsh, difficult and antagonistic. You are temperamental, not easy to get along with, although you probably think yourself abused. A material setback may closely precede or accompany this period. Your vitality is low, and your urge to impress your personality, your will, your ideas, your feelings on those around you leads to strife, quarrels and separations. If you do not actually have an open break of some kind, you withdraw into yourself and separate from others in spirit. There may be some ill health, real or imagined, probably more mental and psychic than actual and physical. You are passing through a period when the ego expressive urge is
hammered both by circumstances and by your own personality. You rebel and it is your rebellion, rather than externals, that makes the period difficult. You come in contact, perhaps for the first time, with certain worldly realities, certain practical problems of human relations, certain gaps in your own personality - and you fight against recognizing what you see. The result is a deepening of your character and a broadening of your personality; but while the period is going on, you will perhaps be unable to see this. You will be locked into yourself, probably feeling very sorry for the same, very much misunderstood and pushed around. It will take you some time to see that all the pushing around is being done by yourself and that you can stop when you like by accepting what is and by learning to conform to the circumstances of the world as it is and of people as you find them. You will learn, before you are through, that the only thing you can be sure of controlling always is yourself; and that things outside you are less important than the interpretation you put on them.

Naturally introspective people, under this influence, will go quickly to the bottom of the problem, will plunge, perhaps swiftly, to a depth of despair and expression, will quickly find within themselves the root of their difficulty and eliminate it once and for all. They will emerge "twice-born," with a deep knowledge of themselves that will never desert them and a newly acquired self-assurance that will stabilize their lives forever.

Those who are less introspective will have a more difficult time, for they will be less ready to fix the blame where it belongs: within themselves. In these people the period may last beyond the time actually consumed by the transit itself and may indeed linger for many years. These are the people who are constantly at war with their world - if not in open strife with those around them, then resentfully, within themselves, so that "life loses its zest" and becomes, not a vigorous adventure, but a tedious struggle toward a badly defined goal.

Seek from this transit to acquire self-knowledge. Learn that when you become the kind of person whom you understand and can live with happily, the entire world becomes easy to live with and you become a useful and progressive citizen of it.

**Oct 18, 2014 - Mars Conjunction Pluto**

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Aggressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. You might be knocked off your throne for no apparent reason. You could emerge from this period thinking the universe is a quixotic, capricious place, or you could take events as keynotes of respect for structure and self-care.

Sexual energy will be high. You could find yourself surrounded by irresistible people, and the tendency is to think that the veil between you and them is much thinner than it really is. Take time to treat people respectfully. Take this opportunity to de-objectify your world view and adopt a more service-oriented demeanor. Depending on how successfully you have mastered life's trials, this could be a time of "icing on the cake". Just make sure the recipients of your "death blows" are the nasty loitering ghosts in your own psyche, not the people on the street whom these ghosts resemble.

**Oct 27, 2014 - Mars Opposition Moon**

Fatigue leads to strife, so relax. There may be illness and you may lose your grip on things.
Refuse to take yourself too seriously. Go to bed and rest instead of brooding; you'll avoid strife and trouble thereby. Force no issues. Energy may find its expression in some glamorous romance which may or may not be important, depending on other long-range transits in force at the same time with this.

**Nov 8, 2014 - Jupiter Square Sun**

Publicity and public affairs favor you and tend to go to your head. You may get careless with money, extend credit too far, and thus lay the basis for later regrets. Restraint brings you gain through important people. You profit by pull, if you are willing to use it as a stepping stone to work and honest effort. Avoid over-extension of ego and authority; be content to take a back seat. Use opportunities, not to promote fame or prestige, but to build foundations on which these may rest in the future. Protect health from excess; some danger of physical setback through self indulgence or overwork. Raises of salary come automatically, if at all, and you gain little by demanding. Rest assured that you will get no more and no less than you deserve, and that the intrusion of the ego is more likely to bring disappointment than favors.

**Nov 8, 2014 - Mars Square Jupiter**

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.

**Dec 3, 2014 - Mars Square Mercury**

Quick speech, thought and actions make strife and trouble. Be silent, cagey, noncommittal. The quick retort makes trouble. Wrong decisions often come in one of these periods, which recur about every six months and need careful watching. Sometimes the most casual remark results in a lasting grudge. Mountains (of trouble) grow out of molehills (of speech). It is best to be silent.

**Dec 27, 2014 - Mars Conjunct Neptune**

Super intuition gives you uncanny insight into motives and methods of other people, but not always into your own. Practice self-analysis. You swiftly feel your creative power, of which you can make good use. Beware sensationalism, sentimentality, self-indulgence; fight subconscious urges, suppressed desires, and make your inner ego work for you along constructive lines. This is an excellent period for creative work, for impersonal use of magnetism for business ends and aims and for social popularity. You have glamour that attracts others: be sure it attracts the right kind of people and for the right reasons. The Old Adam rears his head and may require discipline.

**Dec 31, 2014 - Mars Square Sun**

This combination increases the importance of worldly position and brings shifts in prestige, credit, standing and publicity. Handle contacts with superiors carefully. Can be a peak of accomplishment or the collapse of hopes: it is in any case a climax, for good or bad, of career
matters. You should not force issues but should rather "relax in the saddle of fate" and take what comes. Making demands, insisting, becoming arrogant or stressing your "rights" will only make trouble. Luck is with you, if you let it flow in its own channels and at its own pace; it deserts you if you try to hurry it or to force it beyond its normal bounds.

**Jan 7, 2015 - Jupiter Square Sun**

New starts work out well. Plans for long term activities, such as business or marriage, get off favorably. Home is a good base of operations; and, if other indications for this time concur, it is a good time to buy a permanent home. Extravagance in private life needs controlling, but money is probably well spent because concentrated on basic and permanent possessions and should be steered into these channels. Entertain, build self-assurance by surrounding yourself with the things and the people that make you feel relaxed and comfortable; the ego thus stimulated shines out and helps you toward advancement. Derive your satisfaction from personal pleasures rather than from public acclaim.

**Jan 12, 2015 - Saturn Opposite Venus**

This period has both a practical and an emotional significance. In both planes, realities make themselves felt. This transit brings about some important, and probably permanent, revision in your emotional life and in your attitude toward it. Sometimes this is sad and heartbreaking if your love is not capable of surviving the imprint of realities. But it can establish love on a firm basis forever if its foundations are solidly on earth. The emotional stress is likely, with deep revision of. Occurring before marriage, this transit can mean a broken engagement or attachment, frequently contributed to by worldly affairs, always heartbreaking and sometimes thought of as "fated." Occurring after marriage, it often leads to the brink of divorce, if not actually into it. Financial matters, under stress, contribute to emotional upheaval.

**Jan 14, 2015 - Mars Square Venus**

Social and romantic glamour leads to excesses, sometimes to strife, quarrels, separations. Minor loves and friendships break up, but important relations are merely strained; and indeed this frequently adds glamour to a deep love, intensifying its beauty. A break here, unless contributed to by some more important transit, is a sure index that the feeling wasn't very deep or important anyway. Avoid excess spending and stay away from temptation if you're interested in sticking to the conventions.

**Jan 22, 2015 - Mars Conjunct Mars**

This is a period when new starts should be made, new plans put into execution, new ideas promoted. Energies work along their most characteristic line and can be utilized to excellent advantage. Control natural impulses if you have any that get you into trouble, because now is the time when you are "being yourself" and it is your business to be your best self, not your worst. You are starting a two year cycle and should establish the line you want to continue on for the next twenty four months. Seek new contacts, new avenues of self-expression, new channels into which to direct talents and energies. Beware lest anger and temper - letting go because you're feeling your oats - interfere with your best development. In your life check-up you will find that these recurrent
two year periods marked with great consistency periods of important decisions, developments, activity and changes.

**Jan 25, 2015 - Mars Conjunct Uranus**

Expect temperament, haste and anxiety. Your nerves require watching. These problems can lead to illness from fatigue and nervous exhaustion. You risk accidents (literal and figurative!) from excess speed and lack of care over details. Watch temperament. Accidents in the realm of human relations result from overemphasizing the ego and minimizing the other fellow's viewpoint. Inventiveness abounds; originality is in the saddle; but you can't get your best and truest ideas over to any good advantage, and simply make trouble if you "try too hard." Store them up for a later time when you express them better and when other people listen to you more readily. Look out for machinery, travel, electricity; avoid danger, be careful getting on and off trains and crossing streets.

**Feb 12, 2015 - Mars Square Pluto**

This transit represents a strong alliance of similar energies. A sense of mystery pervades otherwise mundane events. Aggressiveness peaks. Care should be taken to secure your holding, protect your possessions and yourself, for this transit includes some vulnerability to the principle of redistribution. You might be knocked off your throne for no apparent reason. **Feb 20, 2015 - Mars Square Moon**

Fatigue leads to strife, so relax. There may be illness and you may lose your grip on things. Refuse to take yourself too seriously. Go to bed and rest instead of brooding; you'll avoid strife and trouble thereby. Force no issues. Energy may find its expression in some glamorous romance which may or may not be important, depending on other long-range transits in force at the same time with this.

**Mar 4, 2015 - Mars Opposite Jupiter**

This will generally not amount to much, but periods of loss through risks or gambles or through over-enthusiasm or bad business judgment are frequently marked by it. The outlook is too enthusiastic to let sober reason dominate; but this generally brings nothing but minor extravagance. This transit might mark some major material setback due to a combination of bad judgment and bad luck.
Mar 10, 2015  -  Neptune Conjunct Mars

Your energy works automatically under the dominance of intuition. A period of great success or great failure, due in either case to the nature of the dream you hold, which you express with great intensity. A union is effected between your deepest finer nature and the energy expression factor through which you externalize. If your inner nature is dark, sensational and destructive, it manifests itself here in that form. If it is shining and idealistic, master of a high dream, you accomplish wonders. To translate your hidden powers and to express your suppressed desire is the task of this period; in the accomplishment of this task, be re-assured that you will be helped by opportunity, luck and magnetism. Whatever your deep "dream" (or nightmare!) may be, here is where it comes to light. This is a very powerful transit, leading to success, power, riches and fame (or to the exact reverse) but always leading along the path which, in your inner heart of hearts, you have trained the feet of your spirit to follow.

Mar 30, 2015  -  Mars Conjunct Mercury

Sharp wits help if you use them right, hinder if you get smart-alecky with them. Snap judgments, quick speech, sharp retorts and anger make trouble. On the other hand, keen perceptions give you the edge on others; you express yourself readily and to good effect if you keep emotions and personalities out. Sensory perceptions and powers of observation are increased. Creative powers mount; rapidity of mental processes enables you to do more than usual. Mental fatigue can result; budget time for relaxation and sleep. Any tendency to insomnia is emphasized; also to temperament, temper and self-will. This is a good time to sell, bad time to buy. Business is active, judgment shrewd. Sign no papers, don't commit yourself permanently; the picture changes too rapidly. Avoid strife, especially over trifles. Distrust intuitions; put deep trust in hard work and pure reason.

Apr 29, 2015  -  Mars Conjunct Sun

The new starts of your Mars conjunct Mars are helped greatly with this aspect; your energies work smoothly, starting with Mars conjunct Mars (Jan 22, 2015) and gaining momentum as this aspect is reached.

Your danger at this time is temperament, temper, a tendency to feel your own importance too strongly and to get into trouble because of it. Also, unless you have the endurance of an ox, you will tire yourself as Mars transits your Sun, and fatigue is likely to lead to strife, breaks and separations. Translate your energies to work, activity, detached application to a job or task; and don't get touchy or allow personal reactions to interfere with efficiency. This can be a romantic period; your magnetism is high, and you are likely to get what you want if you moderate your demands and use more persuasion and less insistence than you want to. Intuitions can go wrong, and you need the balance of strict mental discipline to bring out the best of your energies. However, it is an excellent time to go after what you want, and marks periods of important decisions and moves.
May 14, 2015 - Mars Conjunct Venus

Heightened emotions make romance, which is favored if you keep it within the bounds of reason and convention. Impulsive acts, with or without a future, are frequently found in these recurrent periods. Glamour surrounds your approach to life; you are susceptible to the opposite sex and they to you. This transit frequently indicates the time of marriage within the period of a longer transit that favors it. If the era of romance is past, this indicates an active and on the whole satisfactory social period; business progress; extravagance with money; a sudden urge to go places and do things - and perhaps a chafing at the marital bit which should not be taken too seriously. Energies work through emotions and passions, which in turn work overtime and should be gently disciplined though not entirely submerged. Often, for obvious reasons, this transit indicates the conception of children, especially if it occurs while Mars is conjunct your sun or conjunct your Mars.

May 18, 2015 - Saturn Opposite Venus

This period has both a practical and an emotional significance. In both planes, realities make themselves felt. This transit brings about some important, and probably permanent, revision in your emotional life and in your attitude toward it. Sometimes this is sad and heartbreaking if your love is not capable of surviving the imprint of realities. But it can establish love on a firm basis forever if its foundations are solidly on earth. The emotional stress is likely, with deep revision of. Occurring before marriage, this transit can mean a broken engagement or attachment, frequently contributed to by worldly affairs, always heartbreaking and sometimes thought of as “fated.” Occurring after marriage, it often leads to the brink of divorce, if not actually into it. Financial matters, under stress, contribute to emotional upheaval.

May 22, 2015 - Mars Square Mars

This transit indicates a period of hard work and abundant energies, which causes no trouble unless major disruptive influences are in force. There is a slight tendency to talk too much, boast and be arrogant, but the swiftness of the pace generally carries you through without major trouble. You should not let distractions interfere with plans you started when Mars was conjunct Mars on Jan 22, 2015. Protect health and nerves from excess; be objective and detached; and let reason rule the emotions.

May 26, 2015 - Mars Square Uranus

This transit is not usually important except as a marker of temperament and minor strife. But at one of these periods some major break due to temperament - some sudden shift in the pace and direction of the life - is likely to occur. The individuality is suddenly awakened to broader horizons, greater worlds to conquer, and determined to shake off the shackles of restraint. In undisciplined persons this will mark periodic temperament, rages, rebellion and strife; also accidents and setbacks due to lack of nervous coordination. In normally disciplined individuals all but one or two of these periods should be comparatively inconspicuous. But the one or two may be memorable and probably nothing to be proud of.
